EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Reasons for Allowance

The instant invention is deemed to be directed to an unobvious improvement over the invention patented by Schwinn et al. (U.S. Patent 4,187,056). Schwinn discloses a fan blade assembly with struts of considerable length, but does not disclose any sort of air seal other than the slight sealing offered by the hub (12) and circumferential spokes (18). The improvement comprises an air seal covering the hub struts with a generally round center sheet and a plurality of radially adjustable segments extending radially from the center sheet each segment comprising a generally trapezoidal sheet spanning the space between adjacent hub struts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
